

## The Lune Rivers Trust

The Lune Habitat Group started in 1998, and in 2008 became the Lune Rivers Trust. We are an environmental group of volunteers dedicated to the protection and improvement of the Lune Catchment. Over the past 13 years we have carried out

over 80 miles of habitat improvements which help fish stocks by reducing pollution and by increasing available food and shelter. We have removed or eased manmade impediments to fish migration such as weirs, fords or pipe bridges and we have many more projects in hand for the coming year.

For more information visit [www.luneriverstrust.org.uk](http://www.luneriverstrust.org.uk) or phone Sarah Littlefield, the Trust Secretary on 015242 22174

## Ribble Rivers Trust

The Ribble Rivers Trust is a local environment habitat group set up to help the rivers and streams of the Ribble Catchment to recover their former condition and provide self sustaining fish stocks once more. The Ribble Catchment covers more than half of the AONB.

Along with carrying out a series of projects to improve rivers and brooks for fish life, Ribble Rivers Trust also run an Angling Passport Scheme which opens up new waters bringing the joy of river fishing to more people. The scheme uses token payments and so is ideal for day visitors looking for somewhere new to fish. For further information visit [www.ribbletrust.org.uk/passport/ribble/](http://www.ribbletrust.org.uk/passport/ribble/)

For more information visit [www.ribbletrust.org.uk](http://www.ribbletrust.org.uk) or phone 01200 444452.

# FOREST OF BOWLAND

Area of Outstanding Natural Beauty

The Forest of Bowland Area of Outstanding Natural Beauty (AONB) is a nationally protected landscape and is internationally important for its heather moorland, blanket bog and rare birds. The AONB is managed by a partnership of landowners, farmers, voluntary organisations, wildlife groups, recreation groups, local councils and government agencies, who work to protect, conserve and enhance the natural and cultural heritage of this special area. Visit [www.forestofbowland.com](http://www.forestofbowland.com) for more information.

## FOREST OF BOWLAND

Area of Outstanding Natural Beauty

This leaflet provides details and a location map of places to fish in and around the Forest of Bowland AONB. The Forest of Bowland is blessed with four of the most scenic and unspoiled rivers in the country, the Ribble, Hodder, Wyre and Lune. All are mainly game fish orientated with salmon, sea trout and brown trout being the staple but with a growing popularity for grayling fishing, particularly on the upper Hodder.

For the still water angler Stocks Reservoir is the largest and perhaps the most dramatic of locations being at the headwaters of the Hodder. Rainbows, blues, browns and the occasional wild brownie are on offer, but the smaller venues should not be ignored as they all have their own character and many also offer accommodation. With such a diverse range of fishing and accommodation available, why not turn your fishing trip in to a holiday.

### Further Information

A directory of other places to fish in the area is also available on the Environment Agency Website at [www.environment-agency.gov.uk](http://www.environment-agency.gov.uk)

### Access for All

Some of the fishing venues can offer access for all in the form of a Trampler – an all-terrain electric wheelchair facility for access to bank side angling. This might be useful for those who may have difficulty negotiating uneven footpaths. Please ask about this when making enquiries.
