

A Summer Quiz

**Forest of
Bowland
National
Landscape**

1 Which noisy black and white bird has a striking red/orange beak?

6 What do you call grass which is cut in the summer and left in the field to dry, then fed to stock in winter?

2 Which moorland plant is very important for red grouse?

7 Roe deer give birth in the early summer. Do you know what their young are called?

3 What's the name of the grass with white, fluffy "pom pom" heads found on boggy fells?

8 Which creatures live above ground in shallow "forms"?

4 Do you know another name for the moorland "whinberry" fruit?

9 Female bats give birth to their young in June—often a single pup. Do you know what bats eat?

5 What type of creature is a Common hawk?

10 Which is larger—the male hen harrier or the female?

With quizzes and activities for everyone to enjoy, why not take a quick look at:
